### Recommended Tools

#### Personal & Vehicle Protection
- **Safety Glasses**

#### Special Tools
- **Volt-Ohm Meter**

#### Installation Tools
- **Trim Removal Tool**
- **Phillips Screwdriver**
- **10-mm Wrench**
- **Drill Bits**
  - 9.5mm or 3/8” (for switch)
- **14mm Wrench**
- **Soldering Tool**

#### Special Chemicals

### Conflicts

**Note:**

### Legend

- **STOP:** Damage to vehicle may occur. Do Not Proceed until process compliance has been met.
- **Operator Safety:** Use Caution to Avoid Risk of Injury.
- **Critical Process:** Proceed with Caution to Ensure a Quality Installation. These points will be audited on a completed vehicle installation.
- **General Process:** This highlights specific processes to ensure a quality installation. These points will be audited during the accessory installation.
- **Tools & Equipment:** This calls out the specific tools and equipment required for the process.
- **Revision Mark:** This mark highlights a change in installation with respect to previous issue.

### WARNING: Do Not Use Hand-Held 2-Way Transceivers Inside Your Vehicle While Driving.

When transmitting from inside the car, 2-way radios that operate in the 25MHz-700MHz frequency range with more than 2.0 Watts of power can produce electromagnetic interference that could interfere with the operation of cruise and throttle controls resulting in vehicle "Limp Mode".

Use of cellular phones will not interfere with these controls.

Due to sensitive nature of signals used for this product, all non-plug and play connections must be soldered. Failure to comply with this requirement will void warranty.
**Scion IQ**

**2012 ELECTRONIC CRUISE CONTROL KIT INSTALLATION**

**10mm Wrench**

**Negative battery Cable**

**Battery**

**Fig. 1-1**

**Blue**

**TO OBD2 CONNECTOR**

**Black**

**Ground**

**CONNECT TO THE ACCELERATOR PEDAL**

**IGNITION**

**BEHIND DRIVER’S KICK PANEL**

**GREEN Pin 3**
Use the lever wedges on the Control Switch at an angle template to drill a 3/8" or 9.5mm hole.

Do not drill hole for control switch before testing the cruise system.

Switch Harness | Rostra Switch
---|---
BLACK | BLACK
BLUE/YELLOW | RED
BLUE/YELLOW* | BLUE*
RED/PURPLE | GREEN
BLACK/PURPLE | YELLOW
YELLOW/GREEN | BROWN

* Both Blue/Yellow wires are spliced together. Just connect one BLU/YEL wire to the BLUE, and the other to the RED. The order does not matter.
