

SOURCE PWR™

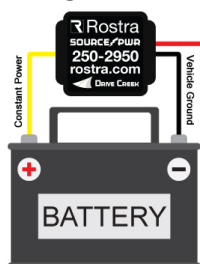

Smart Ignition
PowerModule

Part Numbers: 250-2950-10 10-pack **Warranty:** 3 year / 36,000 Mile Warranty
250-2950-25 25-pack **Applications:** Any vehicle equipped with an ignition
Availability: Immediately

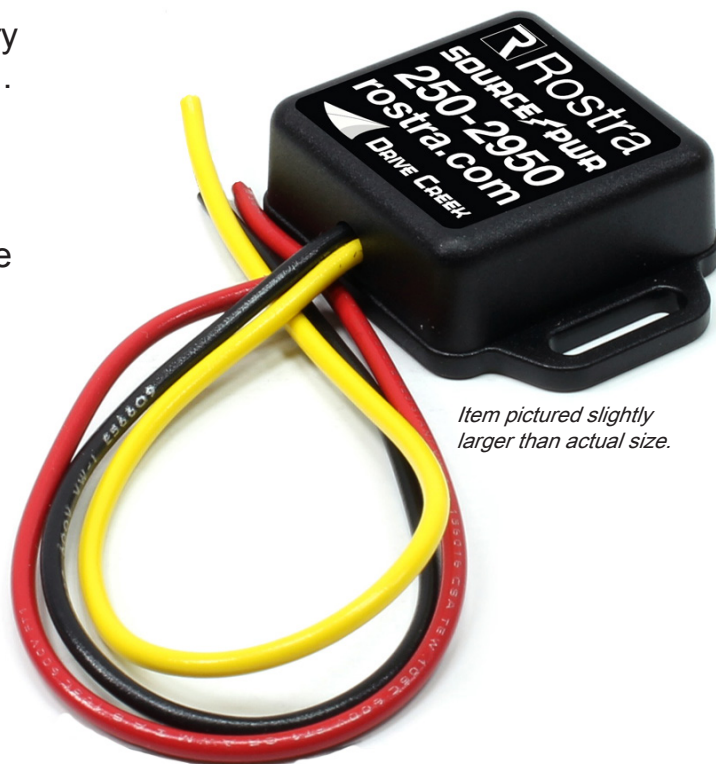

Rostra Precision Controls has released a revolutionary new tool to assist accessory installers: SourcePWR™.

Connect SourcePWR directly to the vehicle battery to power any device up to 7.5 amps when the vehicle is powered on. A smart logic circuit in the SourcePWR module automatically turns off power when the vehicle is no longer running. Never search for a twelve volt power source again!

Ready for immediate shipment, SourcePWR comes in master packs of ten or twenty-five units for easy ordering.

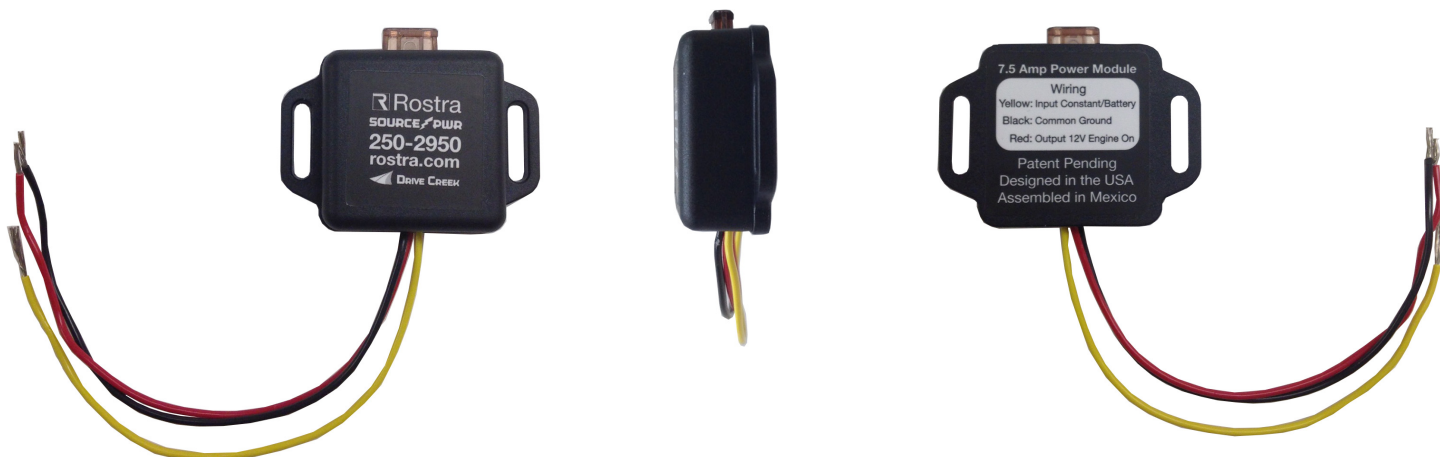

12-volt Output to Accessory
When Ignition Power Is On

Item pictured slightly larger than actual size.
