

iPhone® Voice Command/Audio Streaming Default

When first pairing your iPhone® to a Con-Verse by Rostra *Bluetooth®* system, the *Bluetooth®* control module is defaulted to phone/voice command usage.

If the *Bluetooth®* system is in use for audio streaming, the system default is set to audio streaming.

Follow either procedure below to return the *Bluetooth®* system to phone/voice command:

1. For phone/voice command, press and hold the Phone button  on your *Bluetooth®* control switch for 1 beep to redial. The default is now set to phone/voice command.
2. Press and hold the Phone button  on your *Bluetooth®* control switch for 2 beeps to disconnect the iPhone from your *Bluetooth®* module. Press and hold the Phone button  on your *Bluetooth®* control switch again for 2 beeps to reconnect the iPhone® to your *Bluetooth®* module. The default is now set to phone/voice command.
